

Amendments to the Claims:

This listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

1-11 (Cancelled)

12. (New) A room service table, comprising:

a frame;

a table top;

wheels supporting the frame;

a push handle moving between a use position and a storage position, wherein the handle is fixed and extends above and beyond the table top in the use position and wherein the handle is fixed and extends under the table top in the storage position.

13. (New) A table according to claim 12, wherein the handle pivots between the use position and the storage position.

14. (New) A table according to claim 12, wherein the handle is rigidly set at the use position and at the storage position.

15. (New) A table according to claim 12, wherein the handle extends above the wheels at the use position and at the storage position.

16. (New) A table according to claim 12, wherein the handle is moved between the use position and the storage position while the cart is supported on the wheels.

17. (New) A table according to claim 12, wherein the handle includes a rigid grip portion and connecting portion, wherein the connecting portion pivotally mounts to an underside of the table top.

18. (New) A table according to claim 12, wherein the table top comprises a center portion and side portions folding downward.
19. (New) A table according to claim 12, further comprising a handle lock for locking the handle at the use position and at the storage position.
20. (New) A table according to claim 12, wherein the handle includes a pivoting axis and wherein the handle extends in a first direction away from the pivoting axis at the use position and wherein the handle extends in a second direction away from the pivoting axis at the storage position.
21. (New) A table according to claim 12, wherein the handle abuts an underside of the table top in the storage position.
22. (New) A room service table, comprising:
- a folding table top having a center portion and folding side portions;
 - a frame supporting the center portion;
 - wheels mounted to the frame;
 - a handle pivotally mounted to an underside of the center portion, wherein the handle pivots between a first position with the handle rigidly fixed beneath the center portion, and a second position with handle rigidly fixed above the table top.
23. (New) A room service table according to claim 22, wherein the handle extends horizontally beyond a periphery of the table top.
24. (New) A room service table according to claim 22, wherein the handle comprises a push handle.

25. (New) A handle for a room service table having a table top, a frame supporting the table top, and wheels mounted to the frame, the handle comprising:

a pivot configured for mounting at an underside of the table;

a grip portion configured for gripping while pushing by a user;

a connecting portion attaching to the pivot and the grip portion;

a first lock for rigidly fixing the handle at a use position wherein the handle extends above and beyond the table top; and

a second lock for rigidly fixing the handle at a storage position wherein the handle extends beneath the table top.

26. (New) A handle according to claim 25, wherein the first lock and the second lock are releasable.

27. (New) A handle according to claim 25, wherein the handle abuts the underside of the table at the storage position.
